THE ACCOMPANYING NOTES FROM 1 TO 27 FORM AN INTEGRAL PART OF THESE CONSOLIDATED FINANCIAL STATEMENTS.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AT 31 DECEMBER 2011

1. CORPORATE INFORMATION

Aljarah Holding Company Q.S.C. (the “Company”) is a public shareholding company incorporated in the State of Qatar in accordance with resolution No.35 issued on 21 April 2003 by the Ministry of Business and Trade. The Company is registered under commercial registration No. 26487 and is governed by the provisions of the Qatar Commercial Companies’ Law No. 5 of 2002. The registered office of the Company is located at ‘D’ Ring Road, Doha, State of Qatar. The Company’s shares are publicly traded at the Qatar Exchange.

The Company and its subsidiaries (together the “Group”) are engaged in Leasing, Real Estate, Property Development, Transportation and Limousine Services and operate through its fully owned subsidiaries established in the State of Qatar. The Group is committed to conduct all its activities in accordance with Islamic Sharia’a.

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of Preparation

The consolidated financial statements have been prepared on historical cost basis, except for available-for-sale financial investments that have been measured at fair value. The consolidated financial statements are presented in Qatar Riyals (QR).

Statement of Compliance

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and the applicable requirements of Qatar Commercial Companies’ Law No. 5 of 2002.

The Group presents its statement of financial position broadly in the order of liquidity. An analysis regarding recovery or settlement within 12 months after the end of the reporting period (“current”) and more than 12 months of the end of the reporting period (“non-current”) is presented in Note 23.

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Group as at and for the year ended 31 December each year. The financial statements of the subsidiaries are prepared for the same reporting year as the Company, using consistent accounting policies.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AT 31 DECEMBER 2011 (continued)

All intra-group balances, transactions, income and expenses and profits and losses resulting from intra-group transactions are eliminated in full.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. Control is achieved where the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of income from the date of acquisition or up to the date of disposal, as appropriate.

The consolidated financial statements of the Group include the financial statements of the Company and its subsidiaries (listed below) fully owned by the Group:

Name of subsidiaries	Country of incorporation	Principal activity
Aljarah Leasing Company	Qatar	Islamic leasing
Aljarah Equipment Company	Qatar	Transportation
Aljarah Limousine Company	Qatar	Limousine services
Aljarah Property Development Company	Qatar	Property Development

2.2 Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial year, except for the new and amended IFRS and IFRIC interpretations effective as of 1 January 2011.

During the period, the Group has adopted the following standards effective for the annual period beginning on or after 1 January 2011.

IAS 24, 'Related Party Disclosures (Revised)'

The definition of a related party has been clarified to simplify the identification of related party relationships, particularly in relation to significant influence and joint control. A partial exemption from the disclosures has been included for government-related entities.

For these entities, the general disclosure requirements of IAS 24 will not apply. Instead, alternative disclosures have been included, requiring: (a) The name of the government and the nature of its relationship with the reporting entity (b) The nature and amount of individually significant transactions (c) A qualitative or quantitative indication of the extent of other transactions that are collectively significant. This amendment did not give rise to any changes to the Group's financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AT 31 DECEMBER 2011 (continued)

IAS 32, 'Financial Instruments: Presentation - Classification of rights issues (Amendment)'

The definition of a financial liability has been amended to classify rights issues (and certain options or warrants) as equity instruments if: (a) The rights are given pro rata to all of the existing owners of the same class of an entity's non-derivative equity instruments and (b) In order to acquire a fixed number of the entity's own equity instruments for a fixed amount in any currency. The amendment provide reliefs to entities that issue rights (fixed in a currency other than their functional currency), from treating the rights as derivatives with fair value changes recorded in profit or loss. Rights issued in foreign currencies that were previously accounted for as derivatives will now be classified as equity instruments. This amendment did not give rise to any changes to the Group's financial statements.

Improvements to IFRS (issued May 2010)

'Improvements to IFRS' comprise amendments that result in accounting changes for presentation, recognition or measurement purposes, as well as terminology or editorial amendments related to a variety of individual IFRS standards. Most of the amendments are effective for annual periods beginning on or after 1 January 2011, with earlier application permitted. No material changes to accounting policies are expected as a result of these amendments.

The following amendments, interpretations became effective in 2011, but did not have any impact on the accounting policies, financial position or performance of the Group:

IFRIC 13	Customer Loyalty Programmes (determining the fair value of award credits)
IFRIC 19	Extinguishing Financial Liabilities with Equity Instruments

The Group is currently considering the implications of the new IFRSs which are effective for future accounting periods and has not early adopted any of the new Standards as listed below:

IFRS 9	Financial Instruments: Classification & Measurement (Part 1) (Effective 1 January 2015)
IFRS 10	Consolidated Financial Statements (Effective 1 January 2013)
IFRS 11	Joint Arrangements (Effective 1 January 2013)
IFRS 12	Disclosure of Interests in Other Entities (Effective 1 January 2013)
IFRS 13	Fair Value Measurement (Effective 1 January 2013)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AT 31 DECEMBER 2011 (continued)

2.3 Summary of Significant Accounting Policies

Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is the person or group that allocates resources to and assesses the performance of the operating segments of an entity.

The Group has determined the Chief Executive Officer of the Company as its chief operating decision maker. All transactions between operating segments are conducted on an arm's length basis, with intra-segment revenue and costs being eliminated in Company. Income and expenses directly associated with each segment are included in determining operating segment performance.

Foreign Currency Translation

(a) Functional and Presentation Currency

The consolidated financial statements are presented in Qatar Riyals (QR), which is the Group's functional and presentation currency. Each entity in the group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

(b) Transactions and Balances

Transactions in foreign currencies are initially recorded in the functional currency rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rate of exchange ruling at the end of the reporting period. All differences are taken to the consolidated statement of income. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gain and losses on revaluation of foreign currency non-monetary available-for-sale investments are recognized in the consolidated statement of changes in equity.

Cash and Cash Equivalents

Cash and cash equivalents represent cash, bank balances and other short-term highly liquid investments with original maturities of three months or less.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AT 31 DECEMBER 2011 (continued)

Financial Instruments – Initial Recognition and Subsequent Measurement

The Group classifies its financial instruments in the following categories. The classification depends on the purpose for which the financial instruments were acquired and their characteristics. Management determines the classification of its financial instruments at initial recognition

(a) Installments and Dues from Customers

Installments and dues from customers are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Islamic financing such as Ijarah and Murabaha are stated at their gross principal amount less any amount received, allowance for impairment and unearned profit. Subsequent to initial measurement, installments and dues from customers are carried at amortized cost less allowance for impairment.

(b) Available-for-Sale Financial Investments (“AFS”)

Available-for-sale investments are those intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in equity prices. Available for sale investments include equity securities.

The Group uses trade date accounting for regular way contracts when recording financial assets and liabilities. Financial assets are initially recognized at fair value plus transaction costs.

Available-for-sale financial investments are carried at fair value subsequent to initial recognition. Gains and losses arising from changes in the fair value of available-for-sale financial investments are recognized directly in equity, until the financial asset is derecognized or impaired. At this time, the cumulative gain or loss previously recognized in equity is recognized in consolidated statement of income.

(c) Islamic Financing under Wakalah Arrangements

Financial instruments or their components issued by the Group, are classified as financial liabilities under ‘Islamic Financing under Wakalah Arrangements’, where the substance of the contractual arrangement results in the Group having an obligation either to deliver cash or another financial asset to the holder, or to satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset. After initial measurement, Islamic Financing and Wakalah Arrangements are subsequently measured at amortized cost.

Derecognition of Financial Assets and Financial Liabilities

Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or where the Group has transferred substantially all risks and rewards of ownership. Financial liabilities are derecognized when they are extinguished – that is, when the obligation is discharged, cancelled or expires.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AT 31 DECEMBER 2011 (continued)

Inventory Property

Property acquired or being constructed for sale in the ordinary course of business, rather than to be held for rental or capital appreciation, is held as inventory and is measured at the lower of cost and net realizable value.

Cost includes:

- Freehold and leasehold rights for land
- Amounts paid to contractors for construction
- Borrowing costs, planning and design costs, costs of site preparation, professional fees for legal services, property transfer taxes, construction overheads and other related costs.

Non refundable commissions paid to sales or marketing agents on the sale of real estate units are expensed when paid.

Net realizable value is the estimated selling price in the ordinary course of the business, based on market prices at the end of the reporting period and discounted for the time value of money if material, less costs to completion and the estimated costs of sale.

The cost of inventory recognized in consolidated statement of income on disposal is determined with reference to the specific costs incurred on the property sold and an allocation of any non-specific costs based on the relative size of the property sold.

Leasing

The determination of whether an arrangement is a lease or it contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AT 31 DECEMBER 2011 (continued)

Group as a Lessee

Leases which do not transfer to the Group substantially all the risks and benefits incidental to ownership of the leased items are operating leases.

Operating lease payments are recognized as an expense in the statement of income on a straight line basis over the lease term.

Group as a Lessor

Leases where the Group does not transfer substantially all the risk and benefits of ownership of the asset are classified as operating leases. Initial direct costs incurred in negotiating operating leases are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income.

Fair Values

The fair values of quoted investments in active markets are based on current bid prices. If there is no active market for a financial asset, the Group establishes fair value using valuation techniques. These include the use of recent arm's length transactions, discounted cash flow analysis and other valuation techniques commonly used by market participants.

Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

Impairment of Financial Assets

(a) Financial Assets carried at Amortized Cost

The Group assesses at the end of each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AT 31 DECEMBER 2011 (continued)

The Group first assesses whether objective evidence of impairment exists individually for financial assets that are significant, and individually or collectively for financial assets that are not significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognized are not included in a collective assessment of impairment.

The amount of financing loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective profit rate. The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognized in the consolidated statement of income. The discount rate for measuring any impairment loss is the current effective profit rate determined under the contract. As a practical expedient, the Group may measure impairment on the basis of an instrument's fair value using an observable market price.

The calculation of the present value of the estimated future cash flows of a collateralized financial asset reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral, whether or not foreclosure is probable. For the purposes of a collective evaluation of impairment, financial assets are grouped on the basis of similar credit risk characteristics. Those characteristics are relevant to the estimation of future cash flows for groups of such assets by being indicative of the debtors' ability to pay all amounts due according to the contractual terms of the assets being evaluated.

Future cash flows in a group of financial assets that are collectively evaluated for impairment are estimated on the basis of the contractual cash flows of the assets in the Group and historical loss experience for assets with credit risk characteristics similar to those in the Group.

When a financing is uncollectible, it is written off against the related allowance for financing impairment. Such financing facilities are written off after all the necessary procedures have been completed and the amount of the loss has been determined. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed by adjusting the allowance account. The amount of the reversal is recognized in the consolidated statement of income in impairment charge.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AT 31 DECEMBER 2011 (continued)

(b) Financial Assets classified as Available for Sale

The Group assesses at each reporting date whether there is objective evidence that a financial asset or a group of financial assets is impaired. In the case of equity investments classified as available-for-sale, a significant or prolonged decline in the fair value of the investment below its cost is considered in determining whether the assets are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in consolidated statement of income is removed from equity and recognized in the consolidated statement of income. Impairment losses recognized in the consolidated statement of income on equity instruments are not reversed through the consolidated statement of income.

Property and Equipment

Property and equipment are stated at historical cost less depreciation. Cost includes expenditure that is directly attributable to the acquisition of items. Subsequent costs are included in the asset carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Depreciation is calculated using the straight-line method to write off the cost of property and equipment to their estimated residual values over their expected useful lives as follows:

	Years
Building	10
Office equipment	4-5
Furniture and fixtures	5
Heavy Equipment, trucks and motor vehicles	5
Leasehold improvements	5

Land is not depreciated. Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount. Repairs and maintenance are charged to the consolidated statement of income when the expenditure is incurred.

Capital work-in-progress represents renovation work and construction work which are carried at cost, less any recognized impairment loss. Cost includes professional fees and related construction costs. Upon the completion of the work, the balance of work-in-progress will be transferred to the relevant caption under property and equipment.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AT 31 DECEMBER 2011 (continued)

Accounts Payable and Accruals

Liabilities are recognized for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

Contract Work in Progress and Amounts Due on Construction Contracts

Contract work in progress is valued at cost plus attributable profit less foreseeable losses. Attributable profit is recognized on a percentage completion basis when the outcome of a contract can be assessed with reasonable certainty.

Provisions

Provisions are recognized when the Group has a present obligation as a result of a past event which it is probable will result in an outflow of economic benefits that can be reasonably estimated.

Employee Benefits

Defined Benefit Plan

The Group makes provision for end of service benefits payable to its expatriate employees on the basis of the employees' length of service in accordance with the employment policy of the Group and the applicable provisions of Labor Law. The expected costs of these benefits are accrued over the period of employment.

Defined Contribution Plans

Also the Group provides for its contribution to the State administered retirement fund for Qatari employees in accordance with the retirement law, and the resulting charge is included within the personnel cost under the general administration expenses in the consolidated statement of income. The Group has no further payment obligations once the contributions have been paid. The contributions are recognized when they are due.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AT 31 DECEMBER 2011 (continued)

Revenue Recognition

Construction Contracts

When the outcome of individual contracts can be foreseen with reasonable certainty and can be measured reliably, margin is recognized by reference to the stage of completion, based on the percentage margin forecast at completion. The stage of completion is measured by the proportion of contracts costs incurred for work performed to date to the estimated total contract costs or the proportion of the value of work done to the total value of work under contract. Full provision is made for all known expected losses on individual contracts immediately once such losses are foreseen. Margin in respect of variations in contract work and claims is recognized if it is probable they will result in revenue.

Leasing Income

Income from Islamic Financing and investment contracts under Islamic Sharia'a principles are recognized in the consolidated statement of income using a method that is analogous to the effective 'yield' rate. Fees and Commissions are generally recognized when the related service has been provided.

Transportation Income

Transportation income represents revenue generated from services provided to local customers in respect of transportation of raw materials under a contract with customers. Transportation Income is recognized on accrual basis when the services are provided.

Rental Income

Rental income is recognized when earned based on actual occupancy of the property.

Income from Deposits

Profit from Deposits is recognized on a time proportion basis using the effective profit rate method.

Dividend Income

Dividend income is recognized when the right to receive payment is established.

The Group entered into an agreement with Qatari Diar Real Estate Co on 28 July 2008 to purchase and then re-sell 10,816,151.58 sq feet of land in the Northern and West Water Front of Lusail area.

During April 2009, the Group allotted plots with a total area of 5,915,501 sq. feet to the citizens of Qatar based on a public lottery scheme. Thereafter, the remaining plots are being sold on a first-come-first-serve basis. Contracts for the sale of plots until the end of the reporting period are in accordance with the terms and conditions of sale as set out in the original purchase agreement.

Accordingly, the sale of the plots are made under a deferred payment plan over a period of five years, with the non-refundable first installment and one time administrative charges being paid on the date of sale. The amounts receivable under this deferred payment plan have been disclosed under Note 4 as "Amounts due from Property Sales".

24. RISK MANAGEMENT

The activities of the Group expose it to routine financial risks, including the effects of defaults by customers, profit rates and liquidity. The Group seeks to minimize potential adverse effects on the financial performance of the Company by taking appropriate steps to address specific risk management areas, such as profit rate risk, credit risk and liquidity management.

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Group's exposure to credit risk is limited to the carrying amount of its financial assets which consist primarily of bank balances and financing facilities to customers. Credit risk on bank balance is limited as deposits are placed with banks having good credit rating.

Equity price risk

Equity price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices whether those changes are caused by factors specific to the individual security or its issuer or factors affecting all securities traded in the market. The Group limits market risk by maintaining a diversified portfolio and by continuous monitoring of the developments in the local markets. The Group is subject to equity price risk in relation to its available for sale investments. The Group evaluates the current market and other factors including normal volatility in share price for quoted equities in order to manage its risk.

24. RISK MANAGEMENT (continued)

Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity requirements are monitored on a periodic basis and the management ensures that sufficient funds are available to meet any future commitments. The Group also ensures liquidity by diversifying the Group's funding sources and entering into financial arrangements with reputable banks and financial institutions.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial assets and liabilities based on the earliest date on which the Group can be required to pay or expect to receive.

<i>Financial Liabilities</i> <i>At 31 Dec 2011</i>	<i>< 1 Year</i> <i>QR</i>	<i>1-5</i> <i>Years</i> <i>QR</i>	<i>Without</i> <i>maturity</i> <i>QR</i>	<i>Total</i> <i>QR</i>
Accounts payable and accruals	236,812,434	24,731,547	--	261,543,981
Islamic financing under Wakalah arrangements	76,986,860	75,060,823	--	152,047,683
Amounts due on Construction Contracts	--	--	527,087,055	527,087,055

<i>Financial Liabilities</i> <i>At 31 Dec 2010</i>	<i><1 Year</i> <i>QR</i>	<i>1-5</i> <i>Years</i> <i>QR</i>	<i>Without</i> <i>maturity</i> <i>QR</i>	<i>Total</i> <i>QR</i>
Accounts payable and accruals	262,840,117	--	--	262,840,117
Islamic financing under Wakalah arrangements	69,336,158	85,877,926	--	155,214,084
Amounts due on Construction Contracts	--	--	973,313,595	973,315,595

Profit Rate Risk

The Group's financing arrangements are solely through Islamic arrangements. Management of the Group believes that these financing arrangements are not sensitive to a change in market profit rates as they are fixed based on the rate applicable at the date of lending.

AT 31 DECEMBER 2011 (continued)

24. RISK MANAGEMENT (continued)

Capital Management

The Company manages its capital to ensure that it will be able to continue as a going concern while maximizing the return to shareholders through the optimization of the debt and equity balance. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the year end 31 December 2011 and 31 December 2010. Capital comprises share capital of QR 329 Million (2010: QR 329 Million).

25. FAIR VALUES OF FINANCIAL INSTRUMENTS

Financial instruments comprise financial assets and financial liabilities. Financial assets consist of cash and cash equivalent, installments and dues from customers and available for sale financial investments and certain other receivables. Financial liabilities consist of Islamic Financing under Wakalah Arrangements, accounts payable, amounts due on construction contracts and certain other accruals.

Management believes that the fair values of financial assets and liabilities are not materially different from their carrying values.

26. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Critical Accounting Estimates and Assumptions

The Group makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Management uses estimates based on historical loss experience for assets with similar credit risks and characteristics and objective evidence of impairment similar to those in the portfolio when scheduling its future cash flows. The methodology and assumptions used for estimating both the amount and timing of future cash flows are reviewed regularly to reduce any differences between loss estimates and actual loss experience.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
AT 31 DECEMBER 2011 (continued)

Impairment Losses on Installments and Dues from Customers.

The Group reviews its financing portfolio to assess impairment at least on a semi-annual basis. In determining whether an impairment loss should be recorded in the Statement of Income, the Group makes judgment as to whether there is any observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of installments due from financing activities before the decrease can be identified with an individual financing in that portfolio. This evidence may include observable data indicating that there has been an adverse change in the payment status of borrowers in a Group, or national or local economic conditions that correlate with defaults on assets in the Group.

Impairment of Available-for-Sale Investments

The Group considers that available-for-sale investments are impaired when there is objective evidence of impairment. Objective evidence for an investment includes information about significant changes with an adverse effect that have taken place in the economic market in which the Company operates and indicates that the investment may have suffered a significant or prolonged decline in the fair value below its cost. The determination of what is significant or prolonged requires judgment. In making this judgment, the Group evaluates amongst other factors, the volatility in share prices, the financial strength of related companies and the environment in which the Company operates and the industry.

Useful Lives of Property and Equipment

The Group determines the estimated useful lives of its property and equipment for calculating depreciation. This estimate is determined after considering the expected usage of the asset, physical wear and tear, technical or commercial obsolescence.

Going Concern

The Group's management has made an assessment of the Group's ability to continue as a going concern and is satisfied that the Group has the resources to continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Group's ability to continue as a going concern. Therefore, the consolidated financial statements continue to be prepared on the going concern basis.

Fair Value of Financial Instruments

Where the fair values of financial assets and financial liabilities recorded on the statement of financial position cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The input to these models is taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. The judgments include considerations of liquidity and model inputs such as correlation and volatility for similar instruments.

27. COMPARATIVE FIGURES

Certain of prior year amounts have been reclassified to conform to current year's presentation. Such reclassification has not resulted in any changes to previously reported net profit or equity.
